

Homes are going up!

Walls are rising at [The Tree Farm](#) as our new neighborhood builders start to construct the very first homes in the community. We love to see progress like this that shows the shape and vision of the neighborhood coming to life. Want to check it out for yourself? Book a tour by calling us at 208-343-TREE (8733) or [email us](#).

Architecture Team for Custom Homes = Great Benefits for You!

When we were thinking of ways to showcase all the possibilities in our Magnolia Neighborhood (which features large homesites and custom homes) we landed on a great idea. Why not invite some of our region's best architects to create distinctive plans that take full advantage of each homesite's special attributes? And that's how well-know [Boise architects](#) Jim Glancey, Trey Hoff, Beth Lassen and Catherine Scott got involved with The Tree Farm. Each architect partnered with a custom home builder to create a complete package for homebuyers that incorporates all the elements for buying, building and owning the home. You can choose one of these packages, where the process has already been started for you by Boise's finest professionals, or design and build your own custom home on the homesite of your choice.

Our Online Presence is Growing Too

We've updated our [Boise community](#) Web site once again - check out all the new features including an interactive, clickable map. In addition, we started a [Tree Farm blog](#) and we'd love for you to participate. Simply click "follow" in the left hand margin and you will get instant updates delivered right to your inbox. You can also comment on any of our posted items and let your voice be heard. We look forward to sharing with you
