

Learn From A Tree - Visit Our New Web Site!

We are delighted to introduce you to our new [community Web site](http://www.treefarmliving.com). You'll be surprised at everything a community can learn from a tree - just by rolling your mouse around the page. It's fun! And we hope that you will get a good idea of the unique nature of The Tree Farm and find easy access to all the information you may be seeking. Browse around, tell your friends and enjoy! www.treefarmliving.com

Tree House Party!

Last month, we had a great opportunity to celebrate all the progress that our dedicated team has made at The Tree Farm. Enjoying a beautiful sunny day in the new Tree House Gulch Park, visitors enjoyed BBQ, socializing and games while seeing the vision of The

Tree Farm take shape first-hand. Attendees were the first to enjoy our new tree house, nestled into the park's tree canopy and overlooking our water features. Thanks again to all our team members – from those who originally created the neighborhood vision all the way to those who are on the ground every day making it a reality.

Final Plat for Phase One Is Recorded

Clicking right along on our plans for The Tree Farm, the final plat for phase one of our neighborhood has been recorded within the City of Meridian. This phase includes a total of 140 homesites on nearly 90 acres and represents a giant step toward bringing The Tree Farm vision to life. The phase includes homesites for lifestyle, single-family and custom estate homes, as well as neighborhood elements such as The Harvest House community center. For more information, see our recent press release.
